## Small business needs, we can help

Why should I add my company?

Because now you can sell your stock options, and get credit and investments

What are the requirements before joining?

It must be a real company, with a minimum of 10 employees, located or intending to expand to Chile or Argentina. We hope to add more countries in the future

Advantage 1: Legal and accounting coverage and representation

Your company will have legal and accounting advice and representation in Argentina and Chile

Advantage 2: Arbitration

Your company can now sign contracts, guarantee them with NxB and demand their compliance. Through private arbitration, your company can operate without incident, since the private arbitration are much faster than the rulings obtained through state justice in countries such as Argentina and Chile

Advantage 3: Financing and Networking

Finding new partners and financing the expansion of your company is now easier thanks to networking and without having to ask for abusive loans from banks. Simply by listing your company

Advantage 4: Reward your collaborators

Rewards for your most faithful and loyal collaborators, when they really deserve a prize, which is what they want: Group trips to destinations to explore through CIEX

, apartments rentals with no hassle in several destinations.

How to join

It's very simple: There is a personal meeting with a person from the Mundinix team, where you can see the details and clarify concepts and doubts you may have.

Sumar tu empresa a Mundinix es la verdadera oportunidad que estabas esperando como empresario PyME

Cuales son los requisitos que debe cumplir la empresa antes de sumarse ?

Debe ser una empresa real, tipo PyME, con un minimo de 10 empleados, que este ubicada o que pretenda expandirse a Chile o Argentina, mas adelante podremos incorporar otros paises de la region

**Beneficio 1: Cobertura y representaci3n jur3-dica y contable**

La empresa contara con asesoramiento y representaci3n jur3-dica y contable en Argentina y Chile

**Beneficio 2: Arbitraje**

Tu empresa puede ahora firmar contratos, garantizarlos con NxB y exigir su cumplimiento.
